Where would you go with just a few days notice of an Earth devastating catastrophe? Time to prepare to survive the end times.

Reno is vulnerable to earthquakes, nuclear blast, asteroid hits, the Yellowstone super volcano…you name it!

The Vivos Project is building an underground nuclear blast proof shelter network, each capable of accommodating 200 people for up to 1 year of autonomous survival!

Own an equity share of one of our hardened shelters nearest your home area. These turnkey complexes are fully stocked with everything needed for 200 people to survive up to 1 year. Food, water, fuel, clothing, medicine, security and supplies are all stocked and ready for autonomous survival. You only need to arrive...everything is there.

Think about it. Do you want to sit on the porch and watch the ultimate show, or survive it to be one of the chosen few here to repopulate the Earth. See: http://tr.im/R7Xo
